

1. Log into your business PayPal Account

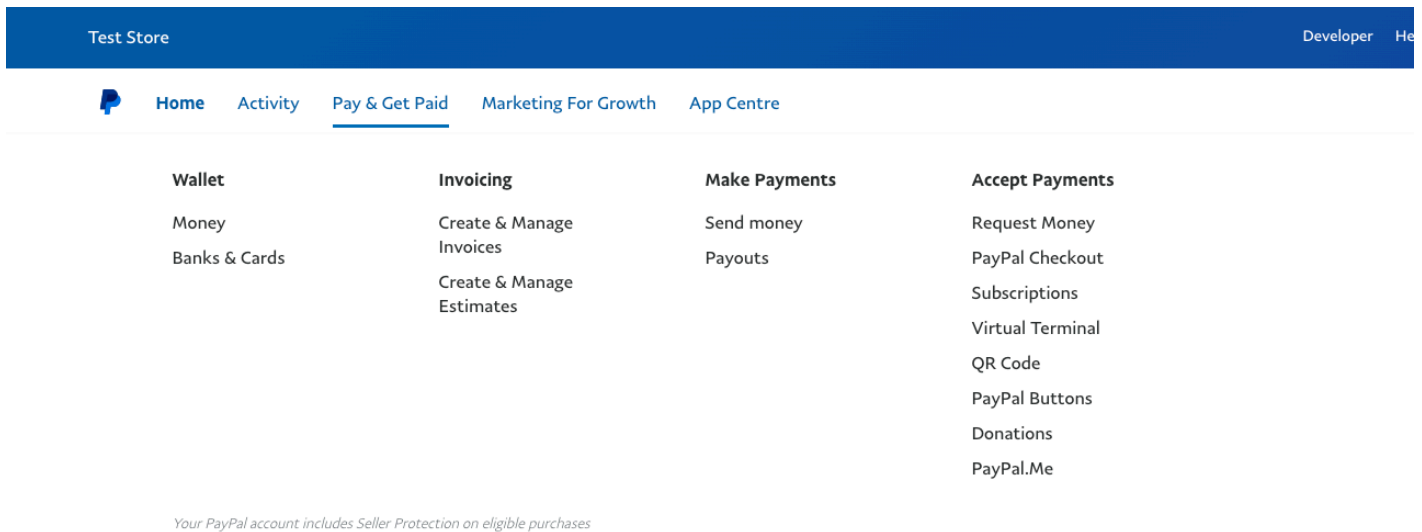

The image shows the PayPal login interface. At the top is the PayPal logo. Below it is a text input field with the placeholder text "Adresse de courriel ou numéro de téléphone mobile". Underneath that is a password input field with the placeholder text "Mot de passe". Below the password field is a link that says "Mot de passe oublié ?". There are two buttons: a dark blue button labeled "Connexion" and a white button with a blue border labeled "Ouvrir un compte". Between these two buttons is a horizontal line with the word "ou" in the center. At the bottom of the form is a Canadian flag icon followed by a dropdown arrow and the text "English | Français".

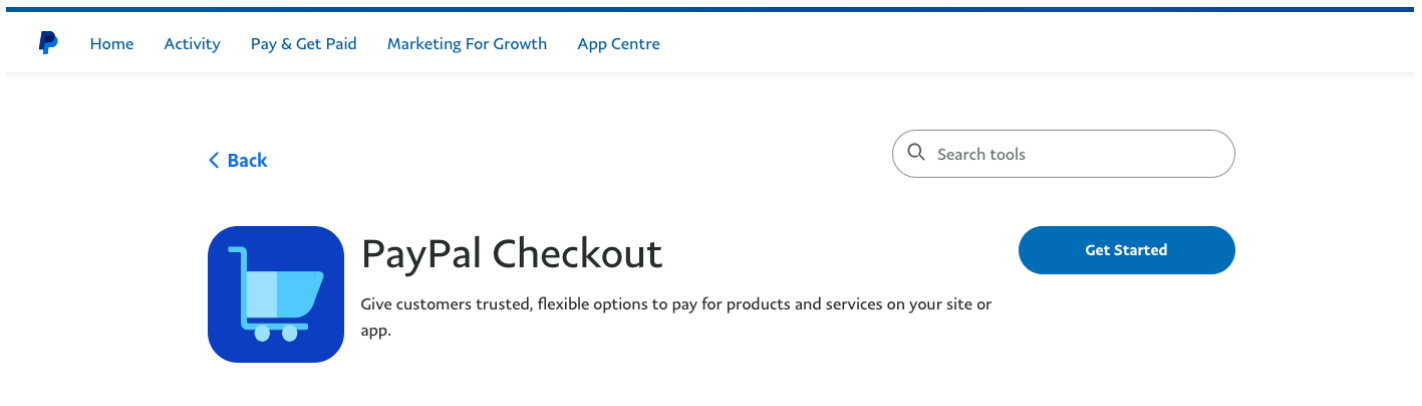

2. Then on the top navigation, click, Pay and Get Paid.

3. From the dropdown menu, click, PayPal Checkout

4. Then click Get Started

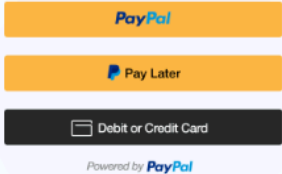

5. At this point, you will have 2 options: (1) Simple, pre-programmed, copy paste solution. That only requires a front end, from my understanding, and (2) A more complex solution,

that is more custom and requires a backend server. We will go with (1)

How do you want to set up PayPal Checkout?

Choose a ready-to-go option

- Add a payment button next to the products or services you're selling

Choose

Code it on your site

- Skilled coders can set up Checkout with our payments API
- Choose a standard setup or apply for custom payment fields
- Add optional chargeback and fraud protection

Choose

6. Then, now, you fill in the form on the left, in order to set your desired checkout.

7. First input is the pricing model

Customize the Smart Payment Button

Button details

✓ Fixed price

Single-select list

Variable price

0 / 127

8. Then description, price, and shipping fee

Item description

0 / 127

Item price

1

Currency

USD

Shipping fee

0

Tax rate %

0

Layout

☒ Vertical

☐ Horizontal

Shape

☒ Rectangle

☐ Pill

Color

☒ Gold

☐ Blue

☐ Silver

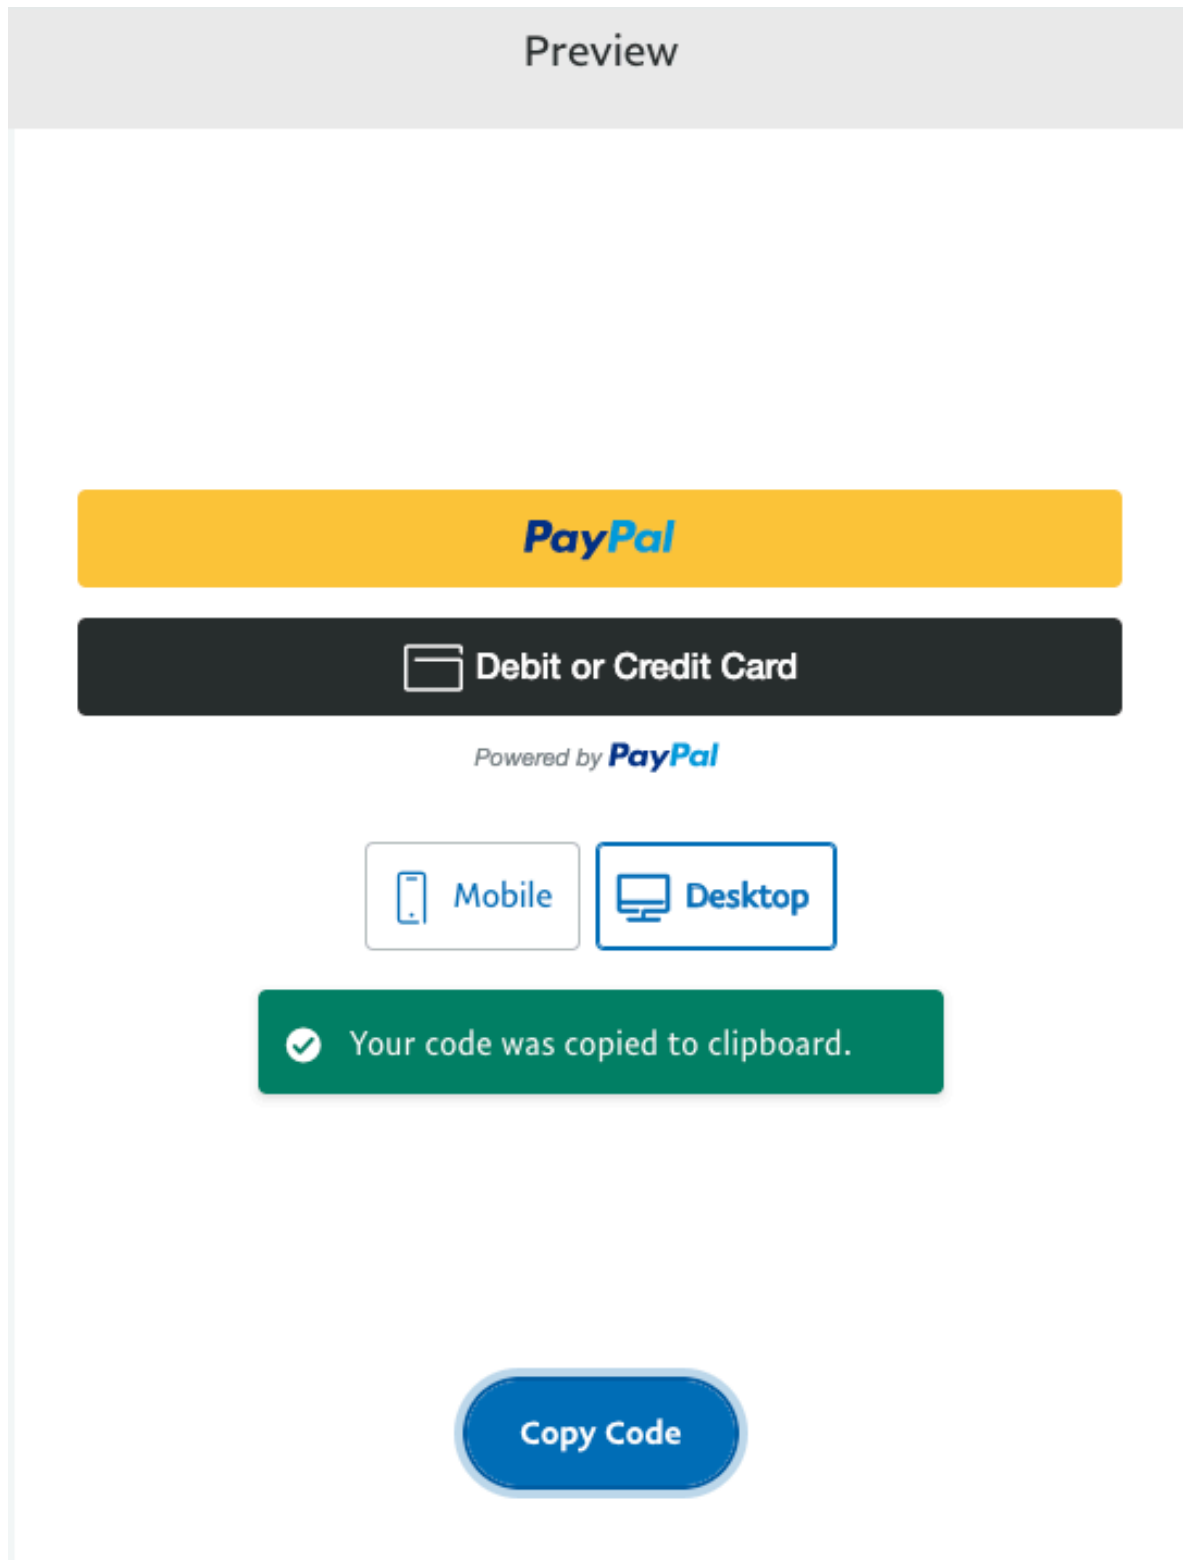

☐ White

☐ Black

Button Text
PayPal

9.If you click the Button style drop down you will get access to a bunch of edits to edit the visuals for your PayPal buttons. I recommend to keep the layout vertical

10. Finally on the right Preview part, always pick desktop, then click copy code!

11. Then open a word, txt, or rtf file paste the code, then send it to Foobar's email, along with the other resources required to make the website: zouhirstoic@gmail.com
